

OCEANS FROM SPACE

Scuola Grande di San Marco, Venezia
28 March – 1 April 2022

Venice, 2 July 2021

Dear Colleagues and Friends of “Oceans from Space”,

This is the third announcement of the Venice-based Symposium’s 5th edition, with new dates.

During the global Pandemic, the Organizing Committee has followed the progress of COVID in order to maintain the wellbeing of delegates to the Symposium. Noting the benefits anticipated from further progress in global vaccination efforts, the Committee has decided to reschedule the Symposium for **28 March – 1 April 2022**.

“Oceans from Space” has always been a fully in-person event, and the 5th edition at the *Scuola Grande di San Marco* will continue in this tradition. The Symposium format remains as described on <https://www.oceansfromspacevenice2020.org>. The same website provides updates of terms and conditions for registrations/submissions, and of any travel-related health measures or restrictions. Registrations and submissions received so far will continue to be valid.

We thank you for your enduring support and patience. Together we shall overcome the Pandemic challenges.

We hope to see you in Venice in March/April 2022!

V. Barale, (Ret.) Joint Research Centre, European Commission, Ispra (I)
